

**MODEL FRAMEWORK AGREEMENT FOR COIL ACTIVITIES (COLLABORATIVE ONLINE  
INTERNATIONAL LEARNING)  
BETWEEN THE UNIVERSITY OF CASTILLA - LA MANCHA  
AND THE **NAME OF THE UNIVERSITY****

**MEETING**

On the one hand, **Mr./Mrs. First Name Surname(s), Institutional Position** of the University of Castilla-La Mancha (UCLM).

And on the other hand, **Mr./Mrs. First Name Surname, Institutional Position** of the **University name**.

Each of the aforementioned parties is authorized by their corresponding universities to enter into this agreement in accordance with their respective duties.

**SET FORTH**

1- Both institutions, within the framework of the teaching internationalization process, wish to promote the Collaborative Online International Learning (COIL), through the creation of COIL units that allow the virtual exchange of academic content between the subjects and their respective education and research staff.

2.- That the establishment of this procedure brings unquestionable benefits for all the involved parties, and greatly promotes the internationalization of both the teaching staff and the academic curriculum, as well as contributing to an increase in the students' interest in mobility programmes. It also incorporates an innovative teaching method that enhances students' acquisition of transversal linguistic and intercultural competences.

3- That the implementation of the use of technological tools and computer applications enables the sustainability and efficiency of this type of online teaching units and allows students to interact and collaborate in the activities designed by their teachers, which also results in the improvement of their intercultural and social competences throughout the shared experience.

In the light of the foregoing, they agree to enter into the COIL unit's regulatory agreement, in accordance with the following:

**CLAUSES**

1. The COIL unit project will be promoted and elaborated jointly by professors, from Centres (Faculties and/or Schools) or directly by the Universities involved.
2. The COIL unit shall be integrated within the subject taught by those responsible for the proposal.
3. The duration of the COIL unit may be four-monthly or shorter, in which case a minimum of 4 weeks is recommended within the framework of the current syllabus at each Institution.
4. These activities must be of a shared academic nature, whereby the academic heads of the COIL unit shall control and monitor the quality and rigour of the collaborative teaching.
5. The design of a COIL unit shall be defined by means of the model in the Annex attached to this agreement.
6. This agreement shall include the Faculties/Centres involved, the degrees and subjects that will form part of the COIL Project, the methodology to be applied, the learning platform, the language of instruction, as well as the assessment system of the COIL unit.

7. The evaluation of the COIL unit to which a percentage of the final grade of the subject is assigned will require its incorporation in the teaching guide, where this circumstance must be stated.
8. The implementation of the activity covered by this agreement does not imply any financial commitment nor does it imply any cost for the parties.
9. All students from foreign universities participating in a COIL unit must register through the application <https://AIReI.uclm.es> prior to the activity.
10. Validity of the agreement. Each COIL unit will require a new agreement for its implementation.

In witness whereof, they have signed this Agreement in duplicate at the places and on the dates indicated below.
