- Scimago Journal & Country Rank es un portal que incluye las revistas y los indicadores desarrollados a partir de la información contenida en la base de datos Scopus.

- Esta plataforma toma su nombre del indicador Scimago Journal Rank (SJR), desarrollado por el grupo de investigación Scimago en el que participan el CSIC y las universidades de Granada, Extremadura, Carlos III y Alcalá, a partir del algoritmo Google Page Rank.
- El indicador SJR se realiza sobre el cálculo de las citas recibidas por las revistas en un período de tres años, otorgando un peso mayor a las citas procedentes de revistas de alto prestigio. Elimina las autocitas.

### SCOPE

The Journal of Mechanical Design (JMD) serves the broad design community as the venue for scholarly, archival research in all aspects of the design activity with emphasis on design synthesis. JMD has traditionally served the ASME Design Engineering Division and its technical committees, but it welcomes contributions from all areas of design with emphasis on synthesis. JMD communicates original contributions, primarily in the form of research articles of considerable depth, but also technical briefs, design innovation papers, book reviews, and editorials.
